Rikesh Shrestha

Address: Maharajgunj
Phone: 9861752607
Email: sr1k3sh@gmail.com
Date of Birth: May 25, 1992

Objective

I am a self learner and self motivated frontend engineer by profession. I believe in hard work and the result of it.

To move forward into Future technology by updating and uploading into the resume of my career. learning 3d and web technology is the core of my Interest. Augmented Reality and JavaScript is my currently favorite.

If I m asked to choose between canvas and svg ,I would go with svg. Lately I find JavaScript framework is the best approach to do web app.

Work Experience

January, 2020 - Now	**Front End Developer** Itonics GmbH Kathmandu Front end development using core javascript. Tools : git/jira/
May, 2019 - Now	**Web And Mobile Developer** GSignalX Pvt. Ltd. Trade Tower,Thapathali Design and Develop Responsive Web App from scratch without 3rd party responsive css framework in Vue.js Mobile Development in React-native. State management and props are the mandatory to know before doing react project. React/React-native js method life cycle integration. Web design system library (experience design) in reactjs where developers can be able to use reusable components from the library and Develop web app itself. Acrylic design container is a tough call in web but I m able to make a dynamic container where it can be use in anywhere as a container , background and components. D3.js library implementation using svg line and loading real-time data into graph. Working on npm modules: calendar library and react icon.
